Disclaimer

This material contains certain forward-looking statements. Such forward-looking statements are not intended to provide guarantees of our future performance and are based on certain assumptions and management's judgment based on currently available information. Therefore, actual results in future earnings and operating results may materially differ from those contained in the forward-looking statements.

The following items are among the factors that could cause actual results to differ materially from the forward-looking statements in this material:

changes in economic environment in Japan and abroad, business condition in Japanese manufacturing industry, competition with other manufacturers, changing technology, regulatory environment, new legislation and any other factors which are beyond our control.

In addition, this presentation is not intended to solicit investment to securities issued by us. We assume no responsibility for any losses and liabilities that may be incurred because of information contained in this material.

(Note)

- · Numbers are rounded off to the nearest whole number.
- \cdot "()" in operating income, ordinary income and net income indicate operating loss, ordinary loss and net loss respectively.
- · In case of negative or above 1,000%, margin is expressed by "-".

| (Net Income Margin) | _ | 0.1% | | | _ | | | | |

As for sales in the first three quarters under review, the Solar Engineering (SE) Division was unable to avoid the adverse effect of changes in the environment and the contraction of the market for the solar electric power business, and sales declined sharply. As a consequence, the net sales of the entire Group were ¥36,633 million (decreased 20.2% year on year).

In terms of profitability, although sales declined sharply in the SE Division, cost reductions as a result of management rationalization initiatives and lower materials costs, among other factors, led to an improvement in the gross margin and a significant fall in selling, general and administrative expenses, and income moved into the black at all levels in the first three quarters under review. As a consequence, for the whole Group, operating income was ¥674 million compared to an operating loss of ¥2,857 million in the same period of the previous year, and ordinary income was ¥452 million compared to an ordinary loss of ¥2,709 million in the same period of the previous year. The Group posted expenses related to voluntary retirement of ¥177 million, including special retirement allowances, as extraordinary losses. The Group posted net income belonging to the shareholders of the parent company of ¥51 million, compared to a net loss belonging to the shareholders of the parent company of ¥3,492 million in the same period of the previous year.

X Material costs includes material costs and supply expenses.

Sales of PV systems decreased 30.6% year on year, and wholesale sales of PV systems declined 70.0% year on year, reflecting a decline in the number of installations of commercial PV systems due to the contraction of the market environment in the solar electric power business. As a consequence, sales were ¥18,597 million (decreased 36.5% year on year).

Despite the sharp decline in sales, operating income increased significantly to ¥1,247 million, compared to an operating loss of ¥1,349 million in the same period of the previous year, reflecting the reduction of personnel and other expenses mainly due to management rationalization and a focus on cost reductions, including costs of materials such as photovoltaic modules.

| Operating Income | 547 | 10.9% | 767 | 15.5% | 140.0% | + 36 | 15.1% | |

Sales of basic repair and house reinforcement construction services for ordinary homes rose from a year ago, while sales of termite control services fell from a year earlier. As a result, sales were ¥4,941 million (decreased 2.1% year on year.

Operating income stood at ¥767 million (increased 40.0% year on year) mainly thanks to cost reductions due to a focus on management rationalization, despite the decrease in segment sales.

| Gross Profit | 1,583 | 14.5% | 2,159 | 17.5% | 136.4% | + 60 | 17.3% |
| SG & A | 1,391 | 12.8% | 1,481 | 12.0% | 106.4% | △ 10 | 12.3% |
| Operating Income | 191 | 1.8% | 678 | 5.5% | 354.7% | + 70 | 5.0% |

Plastic fuel sales secured the level of a year earlier, despite the lower collection volume of waste plastic due to a rise in unit prices primarily for regular properties. Electricity sales rose 63.2% year on year due to a sharp rise in the number of sales to high-voltage consumers in the PPS (power producer and supplier) business. As a consequence, sales were ¥12,348 million (increased 13.3% year on year).

Operating income stood at ¥678 million (increased 254.7% year on year), reflecting an improvement in the gross margin mainly attributable to the revision of unit prices for the collection of waste plastic, a fall in costs such as inspection and repair costs at Tomakomai Power Plant, and an increase in the collection volume of organic waste water recycling.

[Unchanged full-year results forecasts]

The Company is still in the process of undertaking structural reforms under the medium-term business plan announced in April 2016 and steadily pressing forward with various initiatives launched at the beginning of the current fiscal year.

Although operating income exceeds the full-year forecast in the first three quarters under review, we will leave our full-year results forecasts unchanged until we are able to estimate the numbers reasonably by discerning the implementation status of these reforms.

X Material costs includes material costs and supply expenses.

In the SE Division, sales are expected to decline significantly from the previous year due to a challenging market environment for the PV business.

Full-year operating income is expected to improve significantly from the previous fiscal year and move into the black, reflecting a reduction in total expenses as a result of the progress of rationalization and continued efforts to cut the costs of components of PV systems.

| | Results | Prop. | Plan | Prop. | Y on Y | Difference |
| Net Sales | 6,519 | | 6,400 | | 98.2% | △ 119 |
| Gross Profit | 3,255 | 49.9% | 3,222 | 50.3% | 99.0% | Δ 33 |
| SG & A | 2,640 | 40.5% | 2,268 | 35.4% | 85.9% | △ 372 |
| Operating Income | 614 | 9.4% | 954 | 14.9% | 155.2% | + 339 |

In the HS Division, the Company has been bolstering maintenance services, including termite control services and basic repair services for ordinary homes, amid enhanced customer management. Because the Company has also launched new services, including the pressure washing of drain pipes, in which the Company has cultivated expertise in the ES business, the Company expects sales to be on a par with the level in the previous fiscal year.

Full-year operating income is projected to rise from the previous fiscal year, reflecting a reduction in selling, general and administrative expenses due to progress in rationalization.

| (ES Division) | FY201 | 5 | FY2016 | | | |
|---------------------|---------|-------|--------|-------|--------|------------|
| | Results | Prop. | Plan | Prop. | Y on Y | Difference |
| Net Sales | 924 | | 966 | | 104.5% | + 41 |
| Gross Profit | 332 | 35.9% | 374 | 38.7% | 112.6% | + 41 |
| SG & A | 278 | 30.1% | 312 | 32.3% | 112.1% | + 33 |
| Operating Income | 53 | 5.8% | 62 | 6.4% | 114.9% | + 8 |

In the ES Division, the Company will provide follow-up services for existing customers in anti-rust equipment installation services for buildings and condominiums and pest control services for business premises. Meanwhile, the Company will boost the number of new customers primarily through business alliances. As a result, the Company expects an increase in sales from the previous year.

The Company forecasts that full-year operating income will increase from the previous fiscal year, thanks mainly to increased sales.

Segment Forecasts for FY2016 (ERD Division)

There is no change from the forecast announced on November 10, 2016

(Millions of yen)

| | FY2015 | | FY2016 | | | | |
|---------------------------|---------|-------|--------|-------|--------|------------|--|
| | Results | Prop. | Plan | Prop. | Y on Y | Difference | |
| Net Sales | 14,601 | | 16,424 | | 112.5% | + 1,822 | |
| Plastic Fuels | 7,227 | 49.5% | 7,095 | 43.2% | 98.2% | Δ 131 | |
| Power Generation | 3,986 | 27.3% | 6,335 | 38.6% | 158.9% | + 2,348 | |
| Power Producer & Supplier | 247 | 1.7% | 2,443 | 14.9% | 987.7% | + 2,195 | |
| Organic Waste Water | 1,604 | 11.0% | 1,717 | 10.5% | 107.0% | + 112 | |
| Final Disposal | 702 | 4.8% | 621 | 3.8% | 88.4% | Δ81 | |
| Others | 1,080 | 7.4% | 655 | 4.0% | 60.6% | △ 425 | |
| Gross Profit | 2,177 | 14.9% | 3,055 | 18.6% | 140.3% | + 877 | |
| SG & A | 1,895 | 13.0% | 2,004 | 12.2% | 105.7% | + 108 | |
| Operating Income | 282 | 1.9% | 1,051 | 6.4% | 372.4% | + 768 | |

In the Environmental Resources Development Division, the Company expects sales to increase from the previous year, given that electricity sales are set to rise significantly with the contribution of increased sales at Tomakomai Power Plant and in the PPS (power producer and supplier) business, which started in October 2015, and that organic waste water recycling is likely to increase due to a rise in the collection volume.

As for profitability, the Company forecasts that the gross margin will improve mainly due to an increase in profits at Tomakomai Power Plant, reflecting an improvement in the utilization rate and a fall in repair expenses for periodic repairs, etc., as well as an increase in the collection volume in organic waste water recycling.

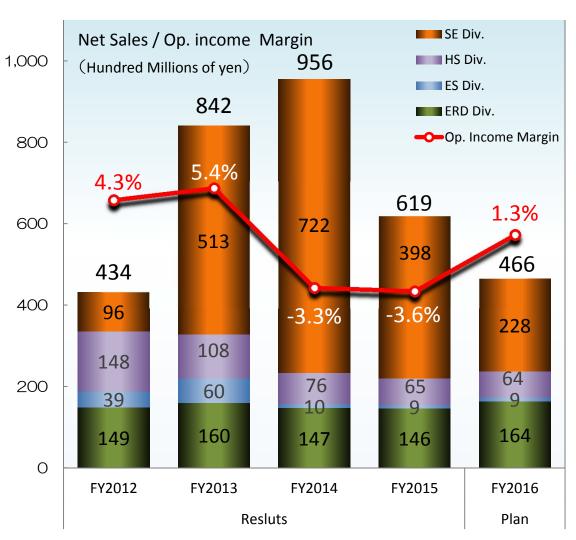

As a result, the Company expects that full-year operating income will rise significantly from a year earlier, despite an increase in selling, general and administrative expenses in the PPS business.
